This document will house the initial group of user stories. The game is referred to as "Ethics Game" because we haven't come up with a proper title yet.

Feature: User is shown a scenario selection screen when they first open the application

Scenario: User opens the Ethics Game application

As a student user

Given that I am on the home page of the Ethics Game application

Then I should see a title that says "Ethics Game"

And I should see a scenario that says "Water Boiling Exercise"

And I should not see a button that says "Administration Tools"

Feature: User is shown a scenario's intro screen when they select it from the main menu

Scenario: User selects "Water Boiling Exercise" from the main menu

As a student user

Given that I am the scenario intro screen for "Water Boiling Exercise"

Then I should see an image of the scenario background

And I should see a title that says "Water Boiling Exercise"

And I should see a description that contains the phrase "Welcome to the Water Boiling Exercise"

And I should see a button that says "Start Scenario"

Feature: When user clicks "Start Scenario", they should be taken to the first page of the scenario

Scenario: User selects "Start Scenario"

As a student user

Given that I am the scenario intro screen for "Water Boiling Exercise"

When I click "Start Scenario"

Then I should see a dialogue box
